

## EDUCATION

- 2014 - 2018  
Field of study  
**Súkromná stredná odborná škola, Poprad**  
Information and digital technologies
- 2018 - 2023  
Field of study  
**Technical University of Košice**  
Faculty of electrical engineering and informatics  
Informatics
- 2023  
Graduate of the master's degree in the study programme Informatics

## EXPERIENCE

- 2021-2022  
Work position  
**Alto Slovakia s.r.o.**  
Python programmer / IT technician
- 2022 - takes  
Work position  
**Inlogix Software s.r.o.**  
JavaScript (HTML5)

In addition to my work experience, I've done several projects for school (console applications, websites). For example, a mobile application for storing 3D models and displaying them in augmented reality made in software Android Studio. Worth mentioning is also my master thesis which dealt with a system for water leak detection ultrasonic measurement with transmission of measured values in real time. The potential leak was evaluated using machine learning. In solving the problem I used technologies and tools such as docker, Node.js, ReactJS, Grafana, MQTT and others. Also several of my own projects. Feel free to check my github where you can find out my code.

## SKILLS

Microsoft Word	advanced	PHP	pre-intermediate
Microsoft Excel	pre-intermediate	JS	pre-intermediate
Adobe Photoshop	pre-intermediate	Bootstrap	pre-intermediate
Adobe Illustrator	advanced	C / C++	beginner
Adobe InDesign	basics	Kotlin	basics
Adobe Premier Pro	beginner	Java	pre-intermediate
HTML / CSS	advanced	Android Studio	pre-intermediate
Počítačové siete	advanced(CCNA)	Blender	pre-intermediate
Python	pre-intermediate	SQL	pre-intermediate
		Docker	basics
		Haskell	basics

## LANGUAGE

Slovak	native
English	advanced (B2)

## HOBBY

- 🏒 ⚽ 🏊  
Sport Ball hockey, tennis, football  
tourism, swimming
- 📄  
Programming, graphic design  
3D modeling
- 📺  
Movies, TV shows,  
games
